

Chattooga County Schools

Accountability Procedures for Public View

The Chattooga County School system respects the importance of public view of accountability for district and school reports. The following procedures ensure that our district and school reports from the state and nation are made available for the public.

District and State Report Card from the [Governor's Office of Student Achievement \(GOSA\)](#)

- The Chief Academic Officer's office works with the Technology Director to hyperlink the report card to the district website.
