

Avoid Portion Distortion

With MyPyramid's Specific Guidelines

By Alice Henneman
UNL Extension Educator

Portion sizes have gotten bigger over the past 20 years, and so are Americans! Larger portions add up. Just 100 extra calories per day can lead to a weight gain of 10 pounds per year. Maintaining a healthy weight is a balancing act — try to balance calories in with calories out.

The new MyPyramid gives more specific guidelines about the types and AMOUNTS of foods to eat than the previous Food Guide Pyramid.

1 tablespoon = 3 thumb tips

1½ ounces* of natural cheese = 6 dice

* Equivalent to 1 cup milk

(2 oz. processed cheese – 8 dice – also are equivalent to 1 cup milk)
