Behavior Documentation Form
Frequency Graph

Student: _____Julius_____ Date of Birth: __8/21/1998_____

Observer: ___Mrs. Smith_____ Date: ___9/7/2004_____

School: ____Elementary_____ Grade: __1____ Sex: __M__

Using a frequency graph can be especially helpful to monitor a Behavior Intervention Plan and to measure progress toward goals. You will easily see if your intervention is decreasing the student's undesirable behavior. Directions: for the specified target behavior, circle the number of times (frequency) the behavior is observed. Beginning with 1, each time the student exhibits the behavior during the observation period, the next highest number is circled. To graph, use a line to connect the highest numbers in each column.

Target Behavior:____ Blurting out- calls out answers without waiting to be recognized by the teacher._____
